15 - Please comment on the effectiveness of the lecture videos. If the videos helped you learn, describe how. If the videos did not help you learn, describe why.	
Response Rate	3/6 (50%)
<ul style="list-style-type: none"> • The videos did give a good over view of the material. • a little dry and boring but I don't think anything could be done about this. • The lecture videos were nice. The information was presented clearly and provided a great introduction to microeconomics.

16 - Please comment on the effectiveness of the the mini project. How was the instructor's interaction with the students during your Zoom video session?

Response Rate	3/6 (50%)
<ul style="list-style-type: none"> The mini-project was a great way to connect the topics in the class. great! The mini project was a good addition to the class. It was helpful for looking at ways the microeconomics topics in the lecture videos could be applied to environmental and natural resources. It increased my interest in the topic of microeconomics and its applications. The instructor was nice and helpful. 	

17 - Please comment on the effectiveness of the course assignments and exam. Did they help you learn the course material? If so, describe how. If not, describe why.

Response Rate	3/6 (50%)
<ul style="list-style-type: none"> The assignments were kind of difficult, but they were a good way to prepare for the exam which was about the same way course assignments and exam actually required me to do real work and use the concepts learned in class rather than just being able to memorize something. They helped reinforce the material in the videos and took some thinking sometimes, but were not so difficult that they were frustrating.
